CCRMagazine.com and the Credit Leaders .Network

Post and View Status Updates

A Status Update is the new way to express yourself, to share news and information with the credit, collections, and enforcement industry. You can share your thoughts, news, and links in words, pictures, and video. There are two parts to the process – how to view Status Updates and how to post them. So here is how to do each of these:

Viewing Status Updates

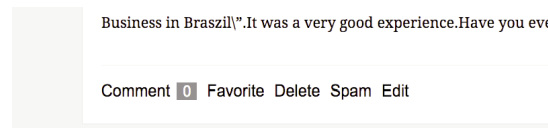

1, You can see the Status Updates posted by your CCRConnections, so make sure that you connect with your fellow professionals (see the User Guide: *Making A Connection*).

2, Then, click on the Credit Leaders .Network button on the top navigation.

3, Choose 'Updates' from the pick-list.

4, You can 'Comment on' or 'Favorite' any post that you choose by clicking on those links.

Posting Status Updates

1, Click on the Credit Leaders .Network button on the top navigation.

2, In the 'What's new panel', you can type or copy-and-paste to post a text Status Update.

3, Click on the 'Add Photos' icon below the text box to add a picture – you can either upload one from a file, or link to an image online. (Before you post, you can add text in the text panel to comment on the picture.)

4, Or, click on the 'Add Videos' icon to add a video – simply enter the web address, for example of a YouTube video. (Before you post, you can add some text in the text panel to comment on the video.)

5, Or, click on the 'Add Link' to share a webpage – for example a news story that you would like others to see. (Before you post, you can add some text in the text panel to comment on the link.)

6, Finally, click on 'Post Update' to complete.

NB: Be sure to choose 'My Profile' from the 'Post in:' pick-list before you post.
